

PROFESSIONAL SUMMARY

Highly motivated Machine Learning Systems Engineer with 5 years of experience in building and deploying scalable machine learning models, including NLP and generative AI solutions. Proven track record of improving model accuracy and reducing inference latency. Excited to leverage my skills in Python, TensorFlow, and PyTorch to develop and improve algorithms and infrastructure for training language models.

CORE COMPETENCIES

Machine Learning

Deep Learning

NLP

Generative AI

Python

TensorFlow

PyTorch

WORK EXPERIENCE

ABC Technologies

Jan 2024 -- Present

Senior AI/ML Engineer India

- Developed and deployed scalable machine learning models using Python, TensorFlow, and PyTorch, resulting in a 40% reduction in inference latency.
- Designed and implemented NLP pipelines for document processing, achieving an 18% improvement in model accuracy.

XYZ Solutions

Jun 2021 -- Dec 2023

AI/ML Engineer India

- Built and deployed machine learning models using scikit-learn and PyTorch, resulting in a 25% improvement in model accuracy.
- Collaborated with cross-functional teams to design and implement data pipelines and feature engineering workflows.

PROJECTS

Enterprise RAG Chatbot

Completed

Developed a conversational AI chatbot using NLP and machine learning techniques, resulting in a 30% reduction in customer support queries.

Python, TensorFlow, PyTorch

OCR + Document Intelligence Platform

Completed

Designed and implemented an OCR and document intelligence platform using machine learning and computer vision techniques, resulting in a 25% improvement in document processing accuracy.

Python, OpenCV, PyTorch

EDUCATION

B.E./B.Tech in Computer Engineering

University Name

Graduation Year

Completed a Bachelor of Engineering degree in Computer Engineering, with a strong foundation in computer science and software engineering.

CERTIFICATIONS

AWS Machine Learning Certification

Amazon Web Services

2022

Microsoft Azure AI Engineer Certification

Microsoft

2022

SKILLS

Technical: Python, TensorFlow, PyTorch, scikit-learn, OpenCV, SQL

Soft Skills: Team Management, Communication, Problem-Solving
